Subject: RE: 2016-58 DR WIAL: Notice of judicial conference: Strathmore park progressive and Beautification Association inc.
Attachments: Strathmore Park Progressive - April 2018 Judicial Conference Speech note....pdf

Dear Jennifer,

I intend to be present at the Conference on Wednesday as representative of the Strathmore Park Progressive and Beautification Association.

I enclose a copy of speech notes which I may seek leave to present in the case that time permits and the subjects concerning us are not covered by others.

My presentation is based on our Association's minute dated 15th March 2018 with the addition of examples to support our views & recommendation to the Court.

Please advise urgently if there is a need for additional copies at the Conference or for notification to other parties.

Yours Sincerely
Glenn Kingston (Secretary/Treasurer)

Subject: 2016-58 DR WIAL: Notice of judicial conference

Dear parties

Please see the attached Notice for a Judicial conference. If any party requires a hard copy posted, please ask.

Please note that we have endeavoured to update everyone's email addresses, but if we do not have your preferred one, please let me know and we will update your details.

Yours sincerely
Jenni

SPEECH NOTES FOR JUDICIAL CONFERENCE 18TH APRIL 2018

In the Matter of section 87G of the Resource Management Act 1991

And

In the Matter of the direct referral of the Application for resource consents associated with an extension to the runway by Wellington International Airport Limited (ENV-2016-WLG-00058)

Your Honour,

My name is Glenn Kingston representing the Strathmore Park Progressive and Beautification Association for which I currently hold the position of Secretary/Treasurer.

1. In March our Association resolved to file a minute to the Court to summarise our concerns regarding the proposed further delay to the Application process. My comments today are based on the minute dated 15th March 2018 & provides examples to support our view.

2. Regardless of whether the project scope is changed, for reasons given by WIAL or for any other reason, we consider that the consent Application should be publically re-notified in its entirety to ensure that new submitters may enter the process and enable them to be on a similar footing to those currently taking part.

- It is expected that a number of owners & certainly tenants in the noise affected area of Strathmore Park will have changed since the initial public notification of this Application in 2015.
- No Strathmore Park resident was consulted by the Applicant or initially advised that their night time noise level would exceed NZS standards for extremely long periods of the construction phase. A joint WCC/WRC advice dated 1 July 2016 was letterboxed to an acceptable area of likely affected residents, just a short time before the closure time for formal submissions.

3. We also expect that a number of issues outlined as possibilities in the original Application will be more specific in a fresh Application and also that WIAL will have the opportunity to mitigate some matters on which submitters have based their actions to date.

Examples are:

- Uncertainty about the use of quarried rock fill or barged dredged material from the Harbour project.
- Haulage times impact:- Some time after the closure date for public submissions the applicant advised reductions to hours & days on which haulage will take place. This change appeared to have the effect of

concentrating the activity toward evening & night hours and needs to be adequately addressed.

- Use of the temporarily shortened "Runway 35" recommended as feasible in Technical Report 8, & accepted by Airlines, is not further considered in the Application or in detailed noise Technical reports. This measure, if adopted, would allow a greater proportion of work to be conducted during daytime airport operational hours and hence must be considered as a practicable option.
- Improved advice, consultation & noise insulation undertakings to affected Strathmore Park residents.

4. We remain of the view that the application being heard in the first instance by the Environment Court (direct referral) has thus far been satisfactory to us as a submitter & therefore we have no wish to recommend that this process be reviewed in the light of delays.

5. We respectfully request the Environment Court to direct that the ensuing Application be publically re-notified in its entirety and to agree that the direct referral method of handling continue to be used.
